

HELIOS Nephrite

Let your business grow smoothly

HELIOS Nephrite

A modern and intuitive system for the most successful companies

We have answered the needs of leading companies in the Czech Republic and Slovakia and created an information system that will meet and adjust to the most demanding requirements.

Modern and intuitive design

HELIOS Nephrite is based on a regular office application environment. Employee training takes no more than a few minutes.

Teamwork

You will considerably speed up the flow of electronic documents, stop writing unnecessary e-mails, and always have important notes and documents readily available.

Reporting and monitoring

Use dashboards, overviews and financial planning as solid supporting documents for your high-quality managerial work. All in real time and available from anywhere.

Web portal

Access data from anywhere, at any time, easily and without installation. The web portal is a simplified form of the standard client, and thus offers a precisely defined and customised scope of administrative work. Offer access to your business partners, distributors or suppliers. Make your cooperation easier and faster.

HELIOS Mobile

The special mobile application for both iOS and Android is an add-on to the standard client. It enables reading and recording data directly from your mobile phone display. Everything is perfectly secured against misuse.

Fields of administrative work

Economics

- Finance and economics
- Invoicing
- Bank

NEPHRITE

references

"We want to be among the first in everything, and a transition was therefore the obvious choice. We look forward to seeing HELIOS Nephrite grow together with us."

Jan Hajič

IT manager of Albi Česká republika a.s.

"We see great potential in using HELIOS Nephrite in new areas that we want to integrate into its environment. We expect improvement in the field of user ergonomics, and we would like to offer online information, which would otherwise not be available, to our suppliers and consumers through Nephrite."

Jan Polách

IT manager of Tereos TTD
